## ***General Information***

### ***Auctioneer***

Leo Casas, III

### ***Association Representative and Special Invited Guests***

Ronnie Wallace, President, Texas Angus Association  
Jimmy Goode, Past-President, Texas Angus Association  
Jared Murnin, Regional Manager, American Angus Assoc.  
Steve Olson, Director, American Angus Association

### ***Sales Staff***

Leo Casas, III, Auctioneer ..... (361) 362-2697  
Jim Banner, *Southern Livestock Standard* ..... (210) 524-9697  
Casey Worrell, *Ranchers Resource* ..... (512) 413-1610  
Jared Murnin, *Beef Bulletin & Angus Journal* (816) 390-7092  
Charles Wood, *Gulf Coast Cattleman* ..... (210) 344-8300

### ***Previous Buyers Discount***

Buyers from the April 25, 2009 Classic X Female Sale will receive a 5% Repeat Buyer Discount off their total purchase.

### ***Terms and Conditions***

All cattle are to be settled for on sale day. All cattle sell under the standard terms and conditions as adopted by the American Angus Association. Announcements made from the sale block take precedence over what is written in the sale book.

### ***Liability***

Everyone attending the sale and/or the premises on which it is to be conducted do so at their own risk. The owners, staff and hosts assume no liability for loss or damages so caused.

### ***Schedule***

Sale Time: 1 p.m. Saturday  
Complimentary Lunch: 11:30 a.m. - 1 p.m. Saturday  
Load out after completion of sale.

### ***Selling***

80 Lots  
Fall Pairs  
Spring Pairs  
Bred and Open Heifers

### ***Cattle Inspection***

3:00 p.m. - 6:00 p.m. Friday  
8:00 a.m. - noon Saturday

### ***\*\*Cattle Will Sell In Sale Book Order***

### ***Sale Location***

J Bar Angus Ranch, 972 FM 340, Hallettsville, Texas  
See map on inside front cover for directions and information on transportation and hotels.

### ***Health***

All animals will be accompanied with proper health certificates. All cattle selling (including calves inside of bred cows) are either AM free, NH free, or have no potential carrier ancestry.

### ***Sale Book Supplement***

There will be a supplement available on sale day, containing up-to-date breeding status and new calf information.

### ***Sale Day Mobile Phones***

Mark Janak (361) 798-6558  
Doug Willard (979) 251-1021  
E.M. Holt (979) 732-1482

### ***Catalog Prepared by:***

Teresa Peverley, Peverley Productions  
785-456-9911

***EPD's listed in the catalog were current as of 2/2010  
when the cattle were selected for the sale.***

Dear Cattle Producers,

It is a privilege to welcome you to the 11th annual Lone Star Angus Alliance Female Sale. We are excited about the quality of females in this offering and hope you will find the kind that will help you achieve your goals in the future.

With the economic situation that we are currently facing, making an investment in genetics is more important now than ever. The LSAA members have taken full advantage of the data available in the Angus breed to produce cattle that not only excel in performance, but also for soundness, fertility and disposition. Take advantage of the data and the overall quality of the Angus females in this sale to make your operation more profitable.

I have personally selected these females for the sale and it is an honor to be affiliated with this group of Angus breeders. Feel free to call me at (512) 413-1610 if I can be of any assistance.

Sincerely,  
*Casey Worrell*

## Pregnancy Information

All cattle have been pregnancy checked by a competent veterinarian or Bio-PRYN pregnancy test (blood) and called safe to the AI sire or pasture date. In respect to AI dates, they are not unconditionally guaranteed other than the fact that they are pregnant.

## Understanding the \$Values

\$Values	\$W	\$F	\$G	\$QG	\$YG	\$B
	+24.07	+21.75	+20.12	+13.25	+4.94	+38.13

### \$Value Indexes

**\$Value indexes**, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

**Weaned Calf Value (\$W)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

**Feedlot Value (\$F)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

**Grid Value (\$G)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**Quality Grade (\$QG)** \$QG represents the quality grade segment of the economic advantage found in \$G. \$QG is intended for the specialized user wanting to place more emphasis on improving quality grade. The carcass marbling (Marb) EPD and ultrasound-derived percent intramuscular fat (%IMF) EPD contribute to \$QG.

**Yield Grade (\$YG)** \$YG represents the yield grade segment of the economic advantage found in \$G. \$YG is intended for the specialized user wanting to place more emphasis on red meat yield. It provides a multi-trait approach to encompass ribeye, fat thickness and weight into an economic value for red meat yield. \$G combines both \$QG and \$YG, and may be the best carcass decision tool for focusing on quality and red meat yield simultaneously.

**Beef Value (\$B)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

## When was the last time your feed company gave you more pasture?

You can't keep forage quality from declining as it matures. But you can make more of what you do have with Purina Mills Controlled Intake

Systems featuring Intake Modifying (IM) Technology. You'll see:

- **24-hours-a-day/7-days-a-week Metered Nutrition,**

to help cattle more efficiently digest forage and consume more of it.

- **Increased grazing time,** 20% higher than hand feeding.

- **Improved grazing distribution,** for uniform use of your entire pasture.

When more of your cattle's needs are met through forage, they'll require less supplement intake – so you get maximum use out of your greatest resource, your forage.

**Stop by your authorized Purina Mills dealer today and ask about Accuration, Sup-R-Lix and Sup-R-Block featuring IM Technology.**
